

## Anti Bullying Conference

July 2017

<u>You Said</u>	<u>We Did</u>
At times corridors were crowded and some younger children found this hard when first starting.	More staff are on corridors during lesson change over, and teachers meet you at the classroom door.
People playing football with plastic bottles and balls on the yard meant you could on occasion have a ball or plastic bottle fly towards you.	Designated areas for football and no bottles are to be used as 'balls'.
Different teachers dealt with bullying incidents differently	Spoke with staff and set clear and simple procedures in place for all to follow.
Stairwells were a squeeze with students going up and down.	One-way stair system and teachers always on duty on the stairs.
Whilst bullying was easy to report sometimes talking to teachers was hard.	Created Bullying Ambassadors in every form group. Peer Mentors for each year group. Social Media, Instagram and Facebook pages set up with direct messaging so students can message staff.
