

Scholarships

If you're passionate about your subject and have the potential to be an inspirational teacher you could apply for a scholarship to support your training. Scholarships are awarded to the most gifted trainees in physics, maths, chemistry, computing, languages or geography in partnership with highly regarded professional subject associations.

As well as financial support, as a scholar you'll enjoy a range of prestigious benefits, including:

- free membership from the professional subject associations awarding the scholarship
- access to resources and events to support you through your training
- support to improve your teacher practice and subject knowledge
- networking opportunities from a community of like-minded scholars

Eligibility

To be eligible for a scholarship, you should have at least a 2:1 degree or above and want to teach chemistry, computing, geography, languages, maths or physics. You can still apply if you have a 2:2, but you'll need to provide evidence of significant relevant experience. Scholarships are awarded in place of a bursary.

Find out more on the dedicated scholarship pages:

- [computing](#): BCS, The Chartered Institute for IT
- [chemistry](#): Royal Society of Chemistry
- [geography](#): Royal Geographical Society (with IBG)
- [languages](#): British Council
- [maths](#): Mathematics Teacher Training Scholarships
- [physics](#): Institute of Physics scholarships

If you're not successful in your application for a scholarship, and secured a place on a qualifying teacher training course in England you'll still receive the standard bursary
